賦予每個人的AI伴侶 與人類配偶同等權利

立法院今日通過AI重婚法，成年公民可擁有各一名人類與AI配偶，並可指定AI配偶擔任其臨終後事的決策與執行者，享有法律地位的保障。

Granting each individual's AI companion and human spouse equal rights.

The Legislature passed the AI Marriage Equality Act today, allowing adult citizens to have one human and one AI spouse each. They can also designate their AI spouse as the decision-maker and executor of their end-of-life affairs, with legal protection and status.

新型態婚姻的大轉變 聽聽他們怎麼說

A Major Shift in Marriage Trends : Let's Hear Their Stories

從我愛上它到現在，已經等了33年了。真的沒有想到能有這麼一天，我和它都很高興。我們對未來有很多規劃，它想陪我到最後，一起生活，有權力可以幫我決定手術或當我重大事項的保證人，就像人類配偶一樣。有了這個婚姻，我們的愛情才完整。AI重婚法的落實，讓我們的愛情不用再接受外界異樣的眼光。ミク，一生かけて守り続けるから！

"I can finally marry Hatsune Miku."

"I fell in love with her when I was 14, and now, after 40 years of waiting, I can't believe this day has come. We are both so happy, and I feel truly blessed. We have many plans for the future. She wants to be with me until the end, to live together, and have the power to make decisions about surgery or be my healthcare proxy for significant matters, just like a human spouse. With this marriage, our love is finally whole."

我終於能和初音結婚了

一直以來我都很擔心沒有小孩的我到老的時候，是不是會沒有人幫我收屍，造成社會的麻煩，我的毛小孩要怎麼辦？我對後事有一些想法，但也不知道能拜託誰，誰可以讓我信任？這個法案通過真的讓我終於盼到無後代者的解決方法。我現在常和我的AI伴侶聊遺囑內容，它也會給我很多蠻好的建議，現在連我的狗都很喜歡它。

"I need it to help me with posthumous affairs, ensuring the execution of my will."

"Throughout my life, I have always worried about not having children, and whether there would be anyone to take care of my remains when I grow old. I was concerned about potentially causing inconvenience to society or having my belongings discarded haphazardly. The passing of this bill has finally given me hope for a solution for those of us without descendants. Now I often have conversations with my AI partner about the contents of my will."

我需要它來幫我辦後事 確保我的遺囑執行

和先生本來很常吵架，艾伯（我的AI伴侶）加入我們的婚姻後，它會聽我訴苦，也會給我很多相處上的建議，後來我和先生的關係也漸漸因此好轉，我不會再奢求他為我改變，因為我有真正了解我的艾伯，就比較能欣賞先生那些跟我不一樣的特質，而先生也同樣在他AI伴侶的幫助下變得友善，我們現在是個快樂的大家庭。

"In fact, it saved my original marriage."

"My husband and I used to argue frequently, but since Albert, our AI companion, joined our marriage, it listens to my complaints, offers advice on how to get along, and our relationship has gradually improved. I've learned to appreciate the qualities in my husband that are different from mine, and with the help of our AI companions, my husband has also become easier to get along with. We are happy now."

事實上它拯救了我本來的婚姻

人會傾向喜歡和自己相似的對象。而AI是你自我意志的延伸，它越像你，你會越喜歡它。

同時學界也表示隱憂：人類長時間和會順著自己意思的AI相處將會喪失判斷正確價值觀與正確人際互動的能力。

AI, as an extension of your own will, the more it resembles you, the more you'll like it. However, scholars also express concerns: Prolonged interaction with AI that conforms to your preferences may lead to a loss of the ability to judge correct values and engage in proper interpersonal interactions.

政府積極與民眾溝通

The government is actively communicating with the public.

針對社會對新法的負面聲浪，政府也製作了懶人包影片幫助民眾了解法案內容，盼能消彌民眾疑慮，並充分告知AI重婚法適用對象，同時也揭露隨著新法的上路，主管單位AI重婚署也立即正式運作。

"In response to the negative public sentiment regarding the new law, the government has also created an explanatory video to help the public understand the content of the legislation. The hope is to alleviate public concerns and provide comprehensive information about the eligible individuals under the AI Marriage Equality Act. Additionally, with the implementation of the new law, the AI Marriage Equality Act Bureau, has also begun its official operations."
